

To Whom It May Concern:

I am writing this letter in support of Mike Karickhoff seeking the office of Indiana State Representative, District 30. I consider Mike a good friend who I have known for over 20 years. Mike and I have worked closely together in a few areas over the years. Among them, Mike was Superintendent of the Kokomo Parks and Recreation Department while I was President of the Parks and Recreation Department Board. We also worked together for 4 years while serving on the Kokomo City Council together.

In the time that we have been friends and worked together, I have discovered several qualities that make Mike Karickhoff an excellent candidate for State Representative. Mike is a person who thinks about his community and ways to improve it. To accomplish this, Mike has learned the finances of the city of Kokomo better than anyone I know. When he heads a project, he uses his tremendous leadership qualities to get the job done – and get the job done without complaining. Mike is also able to reach across the aisle and work well with both Republicans and Democrats to accomplish his goals. All of these traits, and more, are what makes Mike Karickhoff such a true friend and good community representative. I am a lucky man for having had the opportunity to work with, and learn from someone with as much character as Mike. In my book, a vote for Mike Karickhoff is a vote for the betterment of the community and the State of Indiana.

Respectfully,

Greg Sheline
